Featuring New Business Ventures of Faculty and Students

FRIDAY, OCTOBER 30, 2009
1:00 – 2:30 pm
RAJ REDDY CONFERENCE ROOM (4405)
HILLMAN COMPLEX

PROJECT OLYMPUS: Bridging the gap between world-class university research and innovation, and economy-stimulation commercialization, for the benefit of our communities. www.olympus.cs.cmu.edu

TELLTALE

Jamie Callan, Founder

Professor, Language Technologies Institute, Carnegie Mellon

TellTale provides software that enables regulators and legislatures to process public comments much more quickly, more accurately, and less expensively than traditional techniques.

DYNAMICS

Jeff Mullen, Founder and CEO

Tepper MBA '09

Dynamics produces the next-generation credit cards that will reduce fraud and provide a unique customer convenience.

BEATBOTS

Marek Michalowski, Founder

PhD Candidate, Robotics Institute, Carnegie Mellon

Beatbots is a robotic platform used in autism therapy and social development research, with the potential for a broad-based consumer product.

MILLEE

Mathew Kam, Founder

Assistant Professor, Human-Computer Interaction Institute, Carnegie Mellon

Millee enhances access to literacy among children of school-going age in the developing world using cellphone-based educational games.
